

—Greater Than

Use only one set of number cards.

- Choose four number cards.
- Put a number card in each grey box to make the statement true.
- Record your answer. The $>$ sign means, 'is greater than'
- Find as many ways to do this as you can, with the same four numbers.

$\square \square > \square \square$

$\square \square > \square \square$

$\square \square > \square \square$

$\square \square > \square \square$

$\square \square > \square \square$

$\square \square > \square \square$

$\square \square > \square \square$

$\square \square > \square \square$

$\square \square > \square \square$

$\square \square > \square \square$
